COMMERCIAL INTELLIGENCE

SATURDAY EVENING, 27TH APRIL 1878.

We are still unable to record any improvement in the general tone of business here. The despatch of troops to the Mediterranean causes some little stir in freights, but with this exception trade all round is as dull as it well can be, and it seems hopeless looking for any change for the remainder of this season. To all appearance, the political situation at Home is not likely to be permanently settled this side of the monsoon, and even if it were, there is not sufficient produce in the country to afford the means of an active export trade. Seeds are arriving rather more freely it is true, but the certainty that the crops have turned out badly prevents prices coming to anything like a parity with Home figures; whilst Cotton business is shrinking to smaller limits every day, and although so far the actual clearances are a few thousand bales ahead of last year, the fact that we must very soon depend mainly for the balance of our supplies on Dholleras, which is quite an insignificant yield, renders it pretty certain that the total exports for the six months ending on 30th June will be behind even the small total of last season.

Our various markets are, of course, very susceptible to the fluctuating character of the European political advices from day to day, but there can be little doubt, we think, that war is regarded as a much greater certainty in commercial circles here than at Home. In fact, if the steadiness with which the value of Consols is maintained may be taken as any guide to public opinion, a pacific result to the negotiations is looked upon as quite as, if not more, probable than the contrary. Here, however, the despatch of the troops gives a look of reality which has a material effect in influencing people's minds towards war, and there are indications of this apparent which cannot be overlooked. Amongst these is the steady realisation of securities and the simultaneous investments in the precious metals which has been going on amongst native traders for some time past. An advance of something like one per cent. has taken place in the value of both Gold and Silver lately, with the natural result of beginning to attract supplies from London. Of Silver the shipment by last week's steamer from Southampton was only £100,000 which, although unimportant in amount, has some significance as being the first during the past seven weeks; whilst of Gold £100,000 are advised last week, and the next steamer is expected to bring about as much. A portion of this is doubtless due to the past that sellers of Silver at Home have succeeded latterly in maintaining the price of the metal considerably above the level of Exchange, and the country has thus been deprived of its requisite supplies. But although this may be said of Silver it can scarcely hold good with Gold, and there is every reason, we think, to believe that imports of the metal now mean precautionary purchases on the part of natives who look with apprehension to a declaration of war.

MONEY.—The last published return of the Bombay showed a reduction in the Cash Balance of nearly 7 lakhs, the result of withdrawals of private deposits to the extent of 21½ lakhs, less an addition of 3½ lakhs to the Government Account, and a reduction of nearly 13 lakhs in the amounts out in Loans and Discounts.

The return, however, was practically only up to the commencement of the Easter holidays in anticipation of which the large withdrawals of deposits probably took place, and unless under the head of the Government account it is generally anticipated that the forthcoming statement will be more favourable, business demands being so unusually limited for the time of year. In the meantime the Bank of Bengal in Calcutta have reduced their rates of discount 2 per cent. all round, making their minimum charge 7 per cent as against the Bank of Bombay's rates of 8 per cent. on fixed and 9 per cent. on demand loans. The appearance at the moment is decidedly against dear money for the rest of the season so far as trade purposes alone are concerned, but it is difficult to say how the influence of Government finance may yet tend.

EXCHANGE.—The transactions in Sterling this week have again been very moderate and, as a general rule, rates have remained within but fluctuation, although a trifle weaker at the close. Business for the mail opened on Tuesday on the basis of 1s. 8 11-16d. per demand Bank, and 1-9d. for 3 months' sight Credit Bills and no change occurred until Friday when, owing to slightly weaker accounts respecting Silver from London, the Bazaar cut rates as buyers of Private Bills at a reduction of 1-16d. and on Saturday they made a similar attention in their drawing rates, thus reducing closing quotations to the following level :—Bank Bills on demand 1s. 8 11-16d.; 6 months' sight 1s. 9d.; Credits, 3 months' sight 1s. 8 15-16d.; 6 months' 1s. 9¼d.; Documents, 3 months' sight 1s. 9d.; 6 months' 1s. 9 3-16d. per rupee.

As regards the future there is no new feature apparent in the market. The Council drafts last week again brought an average of slightly over 1s. 8¾d. per rupee for the whole £500,000, and so long as this figure or anything approaching it is obtainable Government are not likely to reduce the amount of their drawings. On the other hand, the value of Silver seems to have arrived at something like a settled level at last, so that the probabilities seem in favour of the maintenance of about present quotations, with perhaps a tendency to a slight decline as we approach the monsoon.

On Calcutta, the demand for remittance has fallen off with the reduced value of money there. We now quote demand drafts at par to 1-16 premium 60 days' sight ⅛ per cent. discount.

GOVERNMENT SECURITIES.—In the early part of the week there was considerable pressure to sell, and for a time Fours stood at Rs. 92¾ with few buyers. More pacific telegrams from Home imparted a better feeling, free buying took place, and rates touched Rs. 93¼. Latterly the tendency has been quieter again, and we now quote :—Fours, Rs. 93 to 93¼; Fours-and-a-half, Rs. 93½; Fives-and-a-half, Rs. 102¾.

SHARES.—The market has fluctuated somewhat during the week, but the average tendency, especially within the past few days, has been firmer, and in the majority of instances the changes in our list of quotations are in favour of holders. In *Bank* shares the only movement is a decline of Rs. 4 in National, Agras remaining steady at Rs. 126, and Bank of Bombays at Rs. 6824. In *Land* Companies, Colabas are the only shares which have moved, an advance of Rs. 20 having taken place during the week. *Press* Companies have been perhaps in rather more favour, Apollo are Rs. 20 lower, but East India have advanced Rs. 150, Indian Rs. 20, Albert of Kurrachee Rs. 15, Scinde and Punjab Rs. 10, Volkart's United and Imperial Rs. 5 per share. For *Spinning and Weaving* Companies the demand has been a shade more active, an improved business having been doing within the past few days in local made goods. We notice a decline of Rs. 50 in Alfred Mills, Rs. 25 in Alliance, and Rs. 30 in Khutsso Mucoonjee, on the other hand, there is an advance of Rs. 75 in Alexandra, Rs. 40 in Prince of Wales, Rs. 25 in Dhurrumsey, Rs. 17½ in Nursey, Rs. 15 in Colabs, Madras United, and Manockjee Petit, Rs. 10 in Morarjee Goculdas and Rs. 5 per share in Hindustan and Oriental.

PIECE GOODS.—Our report for all practical purposes is merely a repetition of what we have had to write for weeks back. Prices remain virtually unaltered, stocks are comparatively liberal; and the demand shows no signs of improvement, the clearance from the bazaar during the week a total of about 1,000 packages, and from first hands of about 200 packages of all kinds. As regards the future, prospects are still the same. Should we have a satisfactory rainfall we may look for a marked improvement in the trade, but until this is actually assured a continuance of the existing dulness may be looked upon as almost a certainty.

In Grey Shirtings the enquiry, such as it is, runs mostly upon the lighter makes of 39 inch 6 lbs. and under, 7 lbs. and 8½ lbs. being largely held and difficult to move. For the wider makes the demand is slow and prices only just maintained. Of Printers the clearances have been insignificant, but Mulmulapilams, Jaconets, Mulls, and Dhoties all meet a moderate request at about former rates. Bleached Goods in a general way are not active, although for Mulls, Jaconets, and Doria's the enquiry is pretty fair. Dyed and Printed and Turkey Red Goods remain depressed and almost unsaleable. For Local Goods there has been a somewhat better enquiry lately, and the mills have effected sales to the extent of about 1,500 bales during the week by accepting a slight reduction in price.

TWIST.—The market remains dull and unchanged with only a retail business doing both in English and Local Made Yarns. Prices are unaltered, but to do a large line a reduction from current rates would have to be accepted.

METALS.—*Copper* is a shade firmer, and prices must be quoted As. 8 per cwt. higher. There has only, however, been a very limited business done and supplies are comparatively large. *Yellow Metal* is dull at unchanged prices. *Iron* is very firm at an advance of As. 8 per cwt. in sheets and Re. 1 to Rs. 2 per candy in Bars, the demand in connection with the fitting out of the Expedition having imparted a new life to the market.

COALS.—A slightly steadier feeling is apparent at the close, but the general tone of the market throughout the week has been dull with more sellers than buyers to arrive, except for steamer, or near Cape cargoes which are in request at about previous rates.

COTTON.—The telegraphic advices from Liverpool throughout the week have been dull to a degree, but without quotable change in prices. Here, we have sympathised with the dulness, buyers having only been in the market to cover April shipments, but prices, so far from giving way have, on the contrary, been firmer to the extent of Re. 1 to Rs 2 per candy owing to the scarcity of supplies. In Dholleras the advance has been from Rs. 3 to Rs. 4 per candy, buyers being compelled to pay most shameful prices to cover sales, but it is very evident there is not much in the shape of new business doing.

The actual purchases reported in Bombay since last mail left, sum up a total of about 11,000 bales, consisting of about 500 bales old Dholleras, 1,750 bales New Dholleras, 300 bales New Veraval, 350 bales New Ginned Broach, 2,000 bales New Comptas and 6,500 bales New Omrawuttee. The latter description still constitutes the bulk of our supplies, but it is daily showing more evident signs of nearing the end, and when once it does come to an end the season will be virtually over, as there can now be no doubt that anything we may receive from the Dholleras districts will be quite insignificant, and the Comptas and Dharwar, although good crops, will not be available to a large extent till after the monsoon. These growths are not only late, but the want of cattle for transport purposes, owing to the late famine, is being seriously felt.

The *Receipts* from up-country during the week ending on Saturday, 27th inst. 38,245 bales against 33,700 bales last week and 59,124 bales for the corresponding week last year. The total since 1st September last is now 654,814 bales against 792,266 bales.

The *Clearances for Sea* since the departure of last Mail have been 13,769 bales, making a total since 1st January of 412,390 against 398,591 bales for the corresponding period last season.

This slight excess, however, is not likely to be long maintained, and the favourable estimates of the total exports for the 6 months ending 30th June, are from 650,000 to 700,000 bales.

The following are to-day's quotations for Cotton with equivalents in Sterling Cost and Freight to Liverpool, via Canal, without commission :—

THE VICEROY'S FAREWELL ORDER TO THE INDIAN EXPEDITION.

The following is the text of the farewell order issued by the Viceroy to the troops embarking at Bombay :—

SOLDIERS!—You have been selected for the first expedition that has ever left India to strengthen the British forces in the Mediterranean. Whether your duties be those of peace, or war, I am confident that in the faithful and devoted performance of them you will safely uphold the honour of the Empire which is now confided to your hands. Be assured that your conduct will be watched with interest and your progress with pride by the Queen-Empress, and that from the shores you are now about to leave you will be accompanied by the good wishes of all India.

THE EXPEDITION TO MALTA.

We regret to state that cholera made its appearance on Saturday in the Camp of the F/2 Battery R. A., encamped on the Esplanade. The man first attacked died on Saturday night at 10-30 o'clock in the Colaba Station Hospital. The Serjeant Major of the Battery was yesterday (Sunday) reported as the second case. The Battery, having changed their camp early yesterday morning, embarked yesterday afternoon at 3 o'clock and were taken at once to the mouth of the harbour.

CAPTAIN M. CLEMENTS has been appointed Deputy Judge Advocate to the Force.

We are glad to hear that the Commander-in-Chief, Sir C. Staveley, will make a special inspection of the 9th Bombay N. I., who have received the new equipment, before they start; and that the Band of the Bombay Volunteers will play in front of the 9th on Wednesday from the Sepoys Lines near the Crawford Market to the Apollo Bunder, where the Volunteers will be assembled to give the sepoys a parting cheer.

THE Government of Bombay has seized nearly all the Municipal water-tanks on Cumballa and Malabar Hills. This is energy with a vengeance. We suppose that, if 2,000 more troops are sent abroad, Sir Richard Temple will take away all our bath tubs, and be immediately created a G. C. B. for his zeal in the public service.

A SQUADRON of the 10th Bengal Lancers, sent to join the 9th Bengal Cavalry, left Umballa in two special trains on the 25th inst. They were played off by the bands of the 12th Foot, the 25th N. I., and the 6th D. G. Great enthusiasm prevailed, and there was much cheering. The men left in high spirits, and great regret is expressed by those remaining at not being allowed to proceed.

THE 13th Regiment N. I. left Agra by rail on Monday last at 5 p. m. *en route* for Bombay for service beyond the seas. The Regiment is composed of 150 Sikhs, including 30 volunteers from the 25th P. N. I., all splendid fellows, one company of Goorkhas, two companies of Jats, one company of up-country Shekawatee Musulmans, one company of Shekawatees of all castes, and one company of Bundeelas. The band of the 4-60th Rifles played the regiment out of the Station, and Colonel H. King addressed the Regiment on Parade, and said :—"For the first time in the history of the Bengal Army, native troops have been ordered from India for service in Europe, and the Regiment has the proud distinction of being one of the first ordered to go. Your behaviour and discipline will be closely watched by the English nation, whose soldiers we are, and by other nations of both Europe and Asia: but still more jealously will you be watched by your fellow soldiers of the Bengal Army, whose discipline and credit it will fall upon you to uphold. Now is the time for you to prove that my efforts for the past sixteen years, and those of your other officers to train and discipline you, have not been thrown away." The address was received with great cheering and enthusiasm.

EMBARKATION OF TROOPS.

THE first detachment of the expedition from Bombay is expected to leave the harbour to-day. It will consist of the following ships and troops :—the ships Maraval and Hospodar, carrying the M/1 Battery Royal Artillery, and towed by the steamers Malda and Madura, which have on board the 31st Bengal Native Infantry; the ships Clydesdale and Helen Scott, carrying the F/2 Battery Royal Artillery, and towed by the steamer St. Osyth, which will accommodate the Staff and the 2nd Ghoorkha Regiment; and the ship Oriflamme in tow of the steamer Bengal, with the 13th Bengal Native Infantry, and Nos. 3 and 5 Companies of the Bombay Sappers and Miners.

The M/1 Battery Royal Artillery, men, horses, guns, baggage, and all equipments, are already on board the vessels set apart for them. The guns, carriages, ammunition wagons, &c., were embarked on Friday and the horses and men were shipped yesterday. There was no unshipping of the guns from their carriages, or pulling to pieces of wagons, but they were simply run on board barges from the slip at the side of the Apollo Bunder, and were lifted from the barges at the ships' sides and lowered into the holds complete even to the contents of the ammunition boxes, and ready immediately, on being hauled out again, for active service.

The horses were sent before daylight yesterday morning to the Dockyard, where arrangements were made for getting them safely on board the barges which were to convey them to the ships' sides. There was an artillery driver in charge of every pair of horses, and each driver was assisted by a native *syce*. They were embarked from the Falkland slip, which slopes gradually down to the water. The slip, which is paved with stone, was covered with coir matting, to prevent the horses from slipping in their descent. From the edge of the water, a wooden staging had been constructed, with strong palings at the sides, and with strips of wood nailed across the flooring at short intervals. At the end of this staging, there were half a dozen barges moored side by side and joined by heavy wooden gangways. The decks of the barges, and also the gangway and the stage running between the innermost barge and the ship, were thickly covered with gravel and sand. When all the arrangements were completed, the horses (each with a driver or a syce at its head) were led down the slip, over the staging, and, by means of the gangways, from boat to boat. When fairly on board, they were ranged in double rows, packed as closely together as possible so as to preclude their having room to cause a disturbance on the passage. The animals for the most part travelled the unwonted road very quietly, picking their way across the uneven and moving gangways with great sagacity. Now and then came one inclined to be obstinate, but the drivers managed them admirably, and with a little coaxing even the most timid were induced to make the attempt. It was amusing as a study of equine nature to watch the manner in which different horses got over the difficult parts of the road. The chief obstacle was a gangway between two barges, the outside one of which was a foot or two higher out of the water than the other, so that the horses had to make a slight ascent and then come suddenly down. Some went across very cautiously but without hesitation, carefully picking their way, others looked a moment at the gangway and then made a rush and cleared it almost at a bound, and others again shied off altogether and were only to be got over by being repeatedly put at it, and by giving them a "lead." One obstinate animal, which was left till the last, had to be backed down the slip, and then driven on board with a whip, and another was blindfolded and led on in the dark. When the horses were all safely embarked, the barges were taken in tow by a tug and towed alongside the ships Maraval and Hospodar, and the animals were hoisted by means of slings and tackle, swung over the side, and lowered on the deck or into the 'tween decks as the case might be. The officers' horses were put in stalls built for them amidships on the main deck, and the troopers were stabled below, where the most perfect arrangements had been made for their reception. Along each side of the 'tween decks, for about two-thirds the length of the ship, was a continuous row of stalls, made of stout timbers padded on the inside, and with cross pieces nailed to the deck to afford a hold for the feet. All the necessary stable furniture—such as feeding boxes, buckets, &c.,—was provided. The remaining portion of the 'tween decks was boarded off and was furnished with deal benches and tables for the use of the men. The operation of getting the horses on board was performed safely and quickly. Each animal in turn had the sling adjusted round him, a broad piece of canvas passing under his body, and a strip round the chest, and was hauled into the air with his legs at all sorts of angles, and before he had time to recover from his surprise at such extraordinary treatment, was set down again, surrounded by a number of men who endeavoured to restore his equanimity by caresses and many soothing "whoas," and led off to his stall, where he might soon forget his troubles, for a time at least, in the enjoyment of a good feed of gram. The gunners of the battery, with their baggage, went off also yesterday morning from the Apollo Bunder, and boarded the vessels on one side while the horses were being hauled up the other. The arrangements were under the superintendence of Captain Brebner, who throughout the work connected with the expedition has displayed an energy and a capacity for management which entitle him to the highest praise.

The steamers Malda and Madura, which are to tow the Maraval and the Hospodar, have also received their complement of troops, having the 31st Bengal Native Infantry Regiment divided between them. This regiment arrived in Bombay and embarked at the Carnac Bunder on Saturday. The men—Punjabees and Sikhs, many of whom have never seen the sea before—occupy the 'tween decks, and have already made themselves quite at home. There was some little trouble occasioned in fitting out the vessels in consideration of their caste prejudices. For instance, they declined to drink water which had passed through leather hose, and canvas hose had to be made and used for the purpose of supplying water to the tanks on board. Elaborate arrangements, also, have had to be made on deck for cooking purposes. The European officers of the regiment occupy the after cabins of the Malda and Madura, and the fore cabins are set apart for the native officers and the hospital.

The 13th Regiment Bengal Native Infantry, and the two companies Bombay Sappers and Miners from Poona have also arrived and embarked on board the ship Oriflamme and the steamer Bengal, the Sappers on Friday, and the Bengal regiment on the following day.

The men and horses of F/2 Battery Royal Artillery, who are accommodated on board the ships Clydesdale and Helen Scott were embarked yesterday afternoon in the same manner as those of M/1 Battery. Their guns and heavy baggage were sent on board on Saturday. It was intended that the men and horses should go on board this morning, but in consequence of two cases of cholera having occurred while they were in camp, they were embarked yesterday, and the ships were sent at once to the mouth of the harbour.

There then only remain, to complete the first detachment, the 2nd Goorkhas, who are expected to arrive at Carnac Bunder at 5 o'clock and 7 o'clock this morning, and will go at once on board the steamer St. Osyth.

The strength of the detachment will be :—M/1 Battery Royal Artillery, 6 officers, 158 men, 140 followers, 6 guns, 137 horses, 12 ammunition wagons, 5 spare carriages; F/2 Battery Royal Artillery, 7 officers, 157 men, 162 followers, 6 guns, 142 horses, 12 ammunition wagons, 5 spare carriages; Nos. 3 and 5 companies Bombay Sappers and Miners, 4 European officers, 12 European N. C. officers, 4 native officers, 2 medical subordinates, 188 native rank and file, 48 followers, 3 horses; 31st Bengal N. I., 9 European officers, 15 native officers, 711 rank and file, 183 followers, 9 horses; 13th Bengal N. I., 10 European officers, 15 native officers, 705 rank and file, 187 followers, 3 hospital assistants, 10 horses; 2nd Goorkhas, 8 European officers, 14 native officers, 673 rank and file, 169 followers, 8 horses.

IT is a pity for its own sake that the Tudor Ice Company is not taking greater pains to keep Bombay supplied with a sufficient quantity of ice, and if it does meet with fatal opposition in the course of a few months it will have no one to blame but its own want of management. On Saturday there was a positive ice famine, and as the day was an exceptionally hot one, the deprivation was severely felt by the community. The explanation issued by the manager of the Ice House was that the waggon containing the regular supply from Madras had broken down on the line. We presume that this is another of those "acts of God" under which the management placidly seek shelter whenever their want of foresight has resulted in a blunder; but, just as it would have been easy for the Tudor Company to have had another ship on the way from America to supplement the one that has not turned up yet, so it would have been easy to have provided against the breakdown of Saturday by arranging for two or three days' supplies in advance from Madras. The frequent failures of the Tudor Company to meet their engagements with the public are producing exasperation, and they may depend upon it that if a new ice company is set agoing here it and not the Tudor Company will enjoy the greater part of the public patronage. If the management of the Tudor Company go on sinning in the way they are now doing, in all probability they will some day themselves experience the discomforts of being in a hot place where there is no ice.

SIX of the Licence Tax rioters at Surat have been committed to the Sessions by Mr. Cassinath Mahadeo Thatte, Huzoor Deputy Collector and Magistrate, before whom their case was heard for seven days. Instead of being proceeded against in two other batches, the rest of the rioters to the number of thirty are now being tried together before Mr. Lely, first Assistant Collector and Magistrate of Ahmedabad, who has been specially nominated for the purpose. The case against the thirty accused commenced on Wednesday afternoon last and has been continued from day to day. Four of the accused are Borahs, and six Seedees, who are generally employed by the Borahs as domestic servants; while the bulk of them are Hindoos. The evidence of Mr. Scannell, District Superintendent of Police, as taken down by Mr. Lely, touches the circumstances under which ball cartridge was fired by the regimental sepoys. Mr. Scannell said on this point—"The subedar (of the military) was knocked over. I saw him picking himself up. Jehangiraha (police inspector) had also to be carried away, being knocked off his horse. Some of the sepoys were also knocked over and clamoured to be allowed to fire ball cartridge. Shortly after this they fired their ball cartridge," under whose orders deponent sayeth not.

With the permission of the High Court at Bombay, Mr. G. M. Macpherson, Acting Judge and Sessions Judge of Surat, held a Special Criminal Sessions in that city on Saturday last for the trial of six of the Licence Tax rioters who were committed by Mr. Cassinath Mahadeo Thatte, Huzoor Deputy Collector and Magistrate. The Sessions Judge was assisted in the trial by three assessors—Messrs. Cursetjee Cowasjee, Pranshunker Ramshunker, and Abdoola wullud Belladram. Mr. Kevulram Oomedram, Public Prosecutor, conducted the prosecution. The prisoners were undefended. The charges having been read out to the prisoners by the sheristedar, the Public Prosecutor very briefly stated to the assessors the facts connected with the riots of the 5th inst. and explained to them the nature of the charges. Mr. Scannell, District Superintendent of Police, was the only witness examined during the day. The court adjourned until to-day (Monday).

WE are informed that a brutal murder was committed at Goondolee, near Andaree, in the Tanna Collectorate, on Monday last, in broad daylight. The facts of the case that have transpired are as follows :—The murdered man left his home at 11 a. m. for his fields, and whilst there another of the villagers, between whom and the deceased there existed some enmity, accompanied by his son, son-in-law, and his servant followed the deceased, whom they belaboured and killed. A fourth accomplice, the servant of these men, was arrested by the patell of the village, and confessed the whole affair, but it is said that the constable at Bandora who took down the servant's deposition on Thursday has not issued warrants for the arrest of the parties pointed out as the principals in the murder. This is, we are told, the fourth case of murder in Salsette during the last six months, but none of them has as yet been brought home to the guilty parties.

WE learn that Mr. Steuart Bayley is to succeed Colonel Keatinge as Chief Commissioner, Assam, and it is likely that Mr. C. Bernard will take charge of the Home Office.

A DETACHMENT of the 2nd Punjab Cavalry, under Major Campbell, arrived at Quettah a fortnight ago, relieving the 4th Punjab Cavalry, which left a few days after under Captain Money for Derah Ismail Khan. Two officers of the Sappers, Lieutenants Hill and Blunt, arrived on the 11th. A party of twelve sepoy sappers (all Pathans) and a European corporal left on the 12th for the construction of the telegraph line to Khelat, which, it is expected, will be completed about the end of this month. Mr. Pitman, the Telegraph Superintendent, left on the 13th. The line runs *via* Durcoazo and Mustung, about 90 miles, and there are no serious difficulties to overcome in construction.

IT is confidently stated that the Ameer of Cabul is ill again, this time seriously so.

WE understand, says the Lahore paper, that "orders will be issued immediately recruiting native infantry regiments to a strength of seven hundred sepoys, and native cavalry regiments to five hundred sowars. This is a step in the right direction; for every native soldier leaving India on foreign service, a substitute should at once be enlisted to supply his place. The main point, however, in which the Native Army is still lamentably deficient—namely, the paucity of British officers, is still unattended to."

PEOPLE generally think that the telegraph line to Quettah is used solely, or nearly so, by the Government. But the traffic is largely shared by the natives, some of whom come as far as from Poshin, in the Ameer's territory, to telegraph to their relatives in Hindustan, and even as far south as Bangalore and Ceylon. The news is confirmed, says the Lahore paper, that the Ameer of Cabul has now a most friendly feeling towards the British.

A SON and a daughter of the late Crown Prince of Burma were married on the 12th instant, the parties being born of different mothers. This sort of union is allowable, and, in fact, customary, in the Royal family of Burma.

NEWS has been received in Madras that the Belle Justice has gone ashore at Gopaulpore. She was loading gingelly and other produce.

A PARTY of Nimrods went out to Baraitch lately and bagged three fine specimens of leopard, two panthers, two elks, and one bear. On reaching the river Gogra, one of them shot an immense alligator, measuring from the snout to point of tail twenty feet in length.

ACCORDING to a correspondent of the *Behar Herald*, "a Rajpoot, named Ummer Singh, the other day at the Sotamari Melah, in windy and freezing weather, walked 9½ miles in 1 hour 14 minutes 13 seconds with a bet of Rs. 2, carrying on his head a two gallon stone bottle, neck downwards. The most wonderful part of the performance was that he never once touched the jar with his hand. This man is a big fellow of 14 stone and a marvel in his way."

WE see it stated that the Bishop of Colombo has now turned his attention to the establishment of a nunnery. His sister is to be lady abbess, and will be entrusted with the education of a number of native ladies, who, after being properly qualified, will emerge from the calm recesses of convent life into the busy, wicked, noisy world as refined teachers or saintly sisters of mercy!"

THE *Pioneer*—The only remedy at present known for any snake-bites seems to be the application of a tight ligature above the wound, the excision of the bitten part, and the cauterizing of the wound as quickly as possible. Ammonia or brandy should be given internally. Sir Joseph Fayrer, while recommending that police-stations should be furnished with a supply of ammonia, whip-cord for ligatures, a sharp knife, and an iron for cautery, &c., thinks that we cannot expect the successful application of all this by ignorant peasants, and that the precautions already noticed should be supplemented by some diffusion of knowledge. Pictures of the poisonous snakes as distinguished from harmless ones should be circulated, and judicious rewards offered for the destruction of snakes. Considering that the beautiful illustrations in Sir Joseph's *Thanatophidia*—some of which are marvels of accuracy and delicate colouring—are nearly all of them the work of native artists, it should not be difficult to produce the necessary drawings, and they might be displayed at police-stations, tahsils, schools, &c. Sir Joseph also thinks that the destruction of dangerous snakes should be placed systematically under some central superintendence, such as controls the Thuggee and Dacoity Department; and he thinks that "in a few years the result would be as good in the case of noxious animals as it has been in that of noxious men—thugs and dacoits."

AN EXPLANATION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Will you permit me to say in reference to your article on the subject in Saturday's *Gazette*, that, for want of funds only, the Rev. C. S. Rivington is not a paid agent of the S. P. G.; that when he was invited to this country by the late honorary secretary, the Rev. Dr. Mears, acting on behalf of the committee, neither the Bombay nor the Diocesan Committee, so far as I know, were aware of the connection which, you state, exists between Mr. C. Rivington and the Society of the "Holy Cross," or that, as you allege, he had been rejected as a candidate for mission work by any committee of the S. P. G. Also that the Rev. Secretary of the Home Committee, with the correspondence with the Diocesan Committee did not even hint at any such rejection or disapproval; and that Mr. C. Rivington, with rare self-abnegation, not only, I believe, provided his own passage to India, but is now working at his own charges as a missionary under the Rev. B. Dulley, M.A., who, and not the Archdeacon, is primarily responsible for the successful development of the S. P. G. Mission at Poona. I may add, that the Bishop had left India on sick leave before it was determined to invite, amongst others, Mr. C. Rivington to the Indian Mission field.—Yours, &c.

W. WELLS,
Hon Treasurer, S. P. G.

A BENGALEE has been studying physiognomy to some purpose. He addresses his patron in the following terms :—"You are my L. G., and my only saviour. I have been indelibly branded with this impression since that day when I saw your august and glorious countenance stepping on the stair of your lodging-house. Then, indeed, I thought I am your man, and you will get me good appointment."

ON DANCING.—We said sometime ago that Native society should adopt the system of public dinners in vogue among our European brethren, and that post-prandial speeches might very well form a part of the new institution. Some one suggests, why not have balls like the Europeans? This, we confess, is delicate ground, and difficult too. In the first place women have not that position assigned to them in Native society, which they have in the European; and secondly, many of our countrymen, we regret to say, attach improper ideas to dancing. We are sure that so long as these defects disfigure our social organisation, public balls will remain impracticable. For ourselves we believe dancing to be a perfectly innocent and natural institution. There is enjoyment and fun too in it. But somehow or other our progress has stopped short here. We have not been able to divest the institution of the ridiculous that seems to us to be in it. What can be a more agreeable sight than that of men and women indulging in innocent amusements and giving life a charm and variety not its own? But to see a grave, elderly gentleman passing God's time in dancing is a contingency in Native society for which we are not prepared. No, no. We should not have, even if we would, such an institution as dancing among us. We should die of laughing if we were ever compelled to go through the maze of measured steps in an over-crowded hall of ladies and gentlemen.—*Indian Mirror.*

BOMBAY.

POSTAL NOTICE.—The departure of the coast Mail, per B. I. S. N. Co.'s s.s. Mahratta, having been unavoidably postponed to Monday, this day, the Mails will be closed at the General Post Office at 12 noon on that day.

LETTERS FOR THE EXPEDITIONARY FORCE.—A postal notice, which we publish elsewhere, directs that letters for this force should be addressed to the care of the Bombay Post Master, who will forward them by each Mail.

A CALCUTTA paper says that a revision of the Church Establishment in the Presidency of Bombay has been sanctioned by the Government of India as proposed by the local Government.

A VAGRANT.—H. Fanloon, a European, was on Saturday declared a vagrant by Mr. W. Webb, and was ordered to be sent to the Government Workhouse.

HOUSEBREAKING AND THEFT.—Shaik Hoosein Lutiff was on Saturday convicted by Mr. Nana Morojee of housebreaking and theft of 200 pieces of silk, the property of Cassum Ebrahim. He was sentenced to two years' rigorous imprisonment.

THEFT OF A CURRENCY NOTE.—James McGill, an Eurasian, was on Saturday last convicted by the Hon. Mr. Dosabhoy Framjee of stealing a currency note for Rs. 10, the property of Mr. Bowles. He was sentenced to three months' hard labour.

SUICIDE.—A Coroner's inquest was held on Saturday, on view of the body of Moroba Manickjee, who, it appears, was an habitual drunkard. On the night previous he returned home drunk, and drove his wife and children out of his house, and on the following morning he was found hanging by the neck with a rope fastened to the rafter of the house. A verdict of suicide was returned.

A CORRESPONDENT at Colaba writes to us—"Allow me to draw the attention of the Municipal Commissioner to the very scant supply of water which the residents of Colaba, especially Middle Colaba, receive. The water is turned on at about midnight, but the pressure is so feeble that the water will not rise in my compound in a pipe 2½ feet above the ground. The water is turned off again about 4 a.m., so that it is impossible to collect sufficient water for the day's use. As we pay the same taxes as residents in other parts of the city, we Colabaites ought not to be so badly treated."

THE work of placing the ten twelve tons guns in position at Manora is proceeding in a very satisfactory manner. Four guns will be placed on the top of Manora Point, fully commanding the entrance to the harbour. Three more of the guns will be placed below Manora Point on the shore commanding the deep water to the westward of the entrance to the harbour, and about 1½ miles further on the remaining three guns will be placed in position, giving further command of the entrance to the harbour and rendering an attack by a hostile fleet a very hazardous undertaking. The ten guns are in a shed with their carriages and shot and shell; all are in first rate order, and soon the defences of Kurrachee harbour will be completed.—*Beacon.*

DETENTION OF THE POONA MAIL TRAIN.—It was an accident to the engine of the mail train between Kirkee and Chinchwud which detained it on Thursday morning so that it did not reach Lanowlee until 9 o'clock a.m. On Friday morning early the axle of a goods wagon gave way between Oocrlee and Lonee, and detained the mail train from Madras on the other side of the break. The axles of waggons seem to break down far too often, and we think there should be an inquiry into the reason of such frequent accidents from this cause, in order to prevent them, if possible. The delay in the mail train is a great trouble to the public, as people proceeding by it generally do so because they are pressed for time.—*Deccan Herald.*

WE hear that the station-master of Soagaon station has been tried and convicted for negligent acts and omissions as an officer of the Company in having quietly gone to bed during his turn of duty and being sound asleep when the up mail train on the night of the 12th finished his station. The mail was delayed from 11-50 p.m. of the 12th to 12-25 a.m. of the 13th instant at Jehur station trying to get line clear. At last it had to proceed without it and with a caution notice to Soagaon. There every light at the station was extinguished, every one at the station asleep, and the station-master when found in his house and forced out was very defiant. The night was dark, and the train might have come to grief with all its passengers. It was delayed an hour and a half. The station-master was sentenced to six months' rigorous imprisonment.—*Id.*

THE LANOWLEE HOTEL LOTTERY.—This lottery is to be drawn to-morrow, and as the prize is a large one it is looked forward to with some interest by the ticket holders. One of them writes, "It is anything but encouraging to ticket-holders to learn from the advertisements that the drawing will take place before a committee consisting of two Europeans (whom I know to be railway employés) two Parsees and two Hindoos. These gentlemen might be very respectable members of society for aught I know, but I guarantee that seven-eighths of the ticket-holders don't know who they are, and how they came by the holding of a responsible and duty as members of the committee! Since the lottery was organised under the auspices of Government, it is nothing but fair and just to all interested in the matter that a Government functionary be deputed as chairman of the committee. The drawing has been delayed long enough; why not delay it a few days longer, which will make no material difference either to you or that way, and make an application to Government for the carrying out of this proposition, who, I am sure, would not be so ungenerous as to refuse a request in which so many are interested? I do not see why this can't be done, and I do not see why it should *not* be done,—the public are ready for it, and I would say that, unless active measures are adopted for the fulfilment of my desires, your paper will be teeming with correspondence containing complaints on the subject."

THE GRANT ROAD THEATRE.

IN spite of the heat, and the total failure of the ice supply, the Grant Road Theatre on Saturday evening was crowded on the occasion of the Italian Opera Company giving their Dramatic Concert. As each well-known air from the two Operas announced was rendered by these accomplished artistes, the audience testified their appreciation by constant rounds of applause, and with an enthusiasm rare in Bombay. We congratulate the Company upon this successful performance.

WILSON'S CIRCUS.

MR. WILSON is still meeting with so much success in Bombay, that he has determined to continue his entertainment for one week more; and he announces that from to-day the prices to all parts of the house will be reduced.

A MANGHEMDAR, formerly a guard in the E. B. Railway, was charged at Calcutta Police Office with omitting to take such care with a combustible substance as to guard against probable danger to human life, whereby he had caused hurt to another of the same caste, by burning his face so as to disfigure him. It appeared that the complainant and defendant were seated in a room together, involving the lovelt over a large glass lamp. The complainant having lost though his part of the performance, got out of the room and seated himself outside in front of a lamp; the latter then commenced his part of the invocation, which he performed in such a manner as to cause the complainant to ridicule him. This incensed the defendant, who, being affected by the oddity, threw a handful of explosive powder at his face, which passing through the flames of the lamp exploded and caused the injuries. Defendant was, on conviction, fined Rs. 10, His Worship advising him not so invoke the devil again as it was he who had got him into trouble.

There were also present a large number of Parsee ladies, dressed in their graceful and bright coloured *sarrees*, and the Parsee children from the three schools of the Association. The meeting was held in a splendid room, large and very neatly and tastefully decorated and furnished. In the centre were several tables, on which were displayed the prizes to be distributed and specimens of needle-work done by the pupils.

On his Excellency's arrival a choir of children sang a song of welcome in Gozerathi, after which

Mr. Nowrojee Furdoonjee stepped forward, and—premising that he had been requested by the managing committee to submit a succint account of the origin and progress of the Association, read the following report :—

MAY IT PLEASE YOUR EXCELLENCY,—The deep interest which your Excellency is known to take in the progress of education amongst the various communities subjects to British rule, and the sympathy which your Excellency has manifested by your presence at different public gatherings, have induced the managing committee of the Parsee Girls' School Association to invite your Excellency to preside on the happy occasion of

PROPRIETOR, PALLONJEE PESTONJEE.

MR. CAWASJEE PALLONJEE, the son of the late old Pallonjee Pestonjee the well known Proprietor of the above Popular HOTELS, begs most respectfully to announce to the Ladies and Gentlemen and to the European Gentry generally, that he has, in deference to the expressed wishes of most of his late father's friends and admirers, and with the object and desire to perpetuate his father's good name in connection with these Hotels, at a very considerable cost, now becomes he sole purchaser and owner thereof.

Mr. Cawasjee will endeavour to treat his patrons with the same courtesy and attention which was so characteristic of his good father, and this, coupled with long experience and intimate acquaintance with the routine and management of the Hotels in his father's lifetime, will, he trusts, be a sufficient guarantee of the Hotels being carried on upon the principles inculcated by his worthy father.

IMPORTANT NOTICE.—Residents at Mr. Pallonjee's Hotels at Byculla can, when it may suit their convenience, tiffin or dine at his Victoria Hotel, Esplanade; and those residents in this Hotel can avail themselves of similar accommodation at his Byculla Adelphi Hotel.

PAINS IN THE BACK, GRAVEL, LUMBAGO RHEUMATISM, GOUT, DISEASES OF THE KIDNEYS AND BLADDER, &c.

DR. DE ROOS' COMPOUND RENAL PILLS

ARE celebrated all over the world as the most safe and speedy remedy for the above dangerous complaints. Discharges of any kind, Stone in the Bladder, and Diseases of the Kidneys and Urinary Organs generally. Possessing tonic properties, they agree with the most delicate stomach, strengthen the digestive organs, increase the appetite, improve the general health, and in three days will effect a cure when copaiba, cubebs, and all dangerous medicines of that class have utterly failed. 1s. 1½d., 2s 9d., 4s. 6d., 11s., and 33s. per box.

These celebrated Pills are an infallible remedy in the most obstinate cases. By their use alone many thousands have been annually restored to health, when every other medicine has failed. Their vast superiority over everything else in the cure of the above complaints is universally acknowledged, and the extraordinary demand for them ever since their first introduction is without precedent. In no instance have they ever been known to fail, or produce those dangerous symptoms so often resulting from sarsaparilla, cubebs, turpentine, and other medicines resorted to. They require neither confinement nor change of diet, and may justly be considered the only safe efficacious remedy for all stages of those disorders for which they are recommended.

THE MOST WONDERFUL PILLS IN THE WORLD.

DR. DE ROOS'

PILULÆ VITÆ, OR VEGETABLE LIFE PILLS.

ALL sufferers from general nervousness, and morbid feelings, low spirits, loss of memory, sleeplessness, harassing dreams, unnecessary fears, mental irritability, failure of the mental and bodily powers, weakness of the nerves, headache, noises in the head, giddiness, indigestion, and other symptoms of chronic disease, will hail with joy the discovery of Dr. De Roos' Life Pills, which speedily and almost magically remove pain and disease of whatever nature, restore cheerfulness to the spirits, vigour to the body, and strengthen all the organs on which health and life depend. they do not contain a particle of mercury, but are purely vegetable; and for all affections of the liver, flatulency, bile, sick headache dizziness, loss of appetite, lowness of spirits, sensations of fulness at the pit of the stomach, pain between the shoulders, and the distress arising from indigestion and general debility, they will be found of unexampled efficacy; and it is no small advantage that they can be taken at any time without danger from wet or cold, or necessity for restraint from business or pleasure. They act mildly on the bowels, without pain or griping, impart strength to the stomach, promote a healthy action of the liver, thus preventing, or when present, curing the jaundice and dropsy, clearing the skin, preventing sallowness and pimples, purifying the blood, banishing the nerves, and marvellously invigorating the whole system. Females of all ages will find them invaluable, and should never be without them. Price 1s, 1½d, 2s. 9d., 4s. 6d., 11s. and 33s. per box.

THE MOST ASTOUNDING CURES *are daily being effected in cases of Nervousness General Debility, Impurity of the Blood, Defective Circulation Languor, Lassitude, Depression of Spirits, Indigestion, Pain and Palpitation in the Side, Harassing Dreams, &c., &c., by*

DR. DE ROOS'

WORLD-FAMED GUTTÆ VITÆ, OR VEGETABLE LIFE DROPS,

whose effects are really magical in restoring lost tone to the system (arising from whatever cause), re-invigorating and enlivening the whole corporeal frame, and gradually, but effectively, building up the most shattered constitution.

Although this truly wonderful recuperative tonic is not put forward to impart an immortality, it is not too much to say that by its means new life is, as it were, imparted to the nervous and debilitated, who were evidently sinking into an early grave whilst to those of maturer years it will gently and serenely protract the close of life. Thousands of apparently hopeless cases given up by the faculty, are now in the enjoyment of health (life's greatest blessing), a living test many to the unspeakable value of this remarkable medicine. Hundreds of testimonials too numerous to publish, may be seen by any one This preparation is extremely pleasant to take and none need suffer while such a miraculous medicament is in existence. Persons of studious habits, debilitated females and those on whom the wear and tear of life is beginning to tell, should perseveringly with this life-reviving tonic for one month, and they will be astonished at its results. All those who have tried other means galvanism electric appliances, &c., without any beneficial result, are earnestly recommended to make fair trial of this medicine, which being concocted on the highest scientific principles, invariably gives the utmost satisfaction.

The great success attendant on this wonderful discovery has led to a host of humble and worthless imitations. The genuine has the words "WALTER DE ROOS, LONDON," printed in white letters on the British Government stamp by order of Her Majesty's Hon Commissioners. Price 11s. and 33s. per Bottle. Sold by Messrs. TREACHER & Co., Limited, Bombay and all the principal Merchants in India.
